WORK EXPERIENCE

Frontend Developer - React (Internship)

Epapa [01/10/2021 – 28/02/2022]

City: Berlin

Country: Germany

1. Developed and maintained web applications using ReactJS and Redux.
2. Collaborated with the design team to implement responsive designs and ensure a consistent user experience across multiple devices.
3. Integrated APIs using RESTful web services to fetch data and improve application performance.
4. Created reusable components and modules to improve code maintainability and scalability.
5. Conducted code reviews and implemented unit tests using Jest to ensure code quality and maintainability.
6. Worked with the team to implement Agile methodologies for project management and collaborated in daily stand-ups, sprint planning and retrospectives.
7. Implemented user authentication and authorization using JSON Web Tokens (JWT) .

Freelance Game Developer

Upwork [01/02/2020 – 01/09/2021]

Country: Germany

1. Collaborating with clients to understand their vision and requirements for the game.
2. Developing game mechanics, designing levels, implementing UI/UX, and ensuring the game runs smoothly on multiple platforms.
3. Writing clean, organized, and maintainable code.
4. Participating in code reviews and providing constructive feedback to clients.
5. Troubleshooting and debugging issues as needed.
6. Meeting project milestones and deadlines.
7. Communicating effectively with clients to ensure their satisfaction with the final product.

Unity Game Developer

BlueHorn Technology [01/09/2017 – 30/08/2019]

City: Lahore

Country: Pakistan

1. Developed and released a popular mobile game that achieved half million downloads within the first month of release.
2. Designed and implemented an intuitive and user-friendly UI/UX system that resulted in increased user engagement and retention rates.
3. Optimized game performance to ensure smooth gameplay on low-end devices.
4. Collaborated with a team of artists and sound designers to create a cohesive and immersive game experience.

Few links of my games that I developed in this company are given below:

- Dinosaur Game Simulator Dino Attack 3D ([Link](#))
- Dragon Simulator Attack 3D Game ([Link](#))
- Cage Revolution Wrestling World ([Link](#))
- Dress Up Superhero Spider ([Link](#))
