DIGITAL SKILLS

HTML5 / CSS3 / JavaScript (Node.js, TypeScrpt) / React.js / NEXT JS / REST API / React Hooks / React Router / React-Context / Redux/Redux-Toolkit / Bootstrap / SASS(SCSS) / Tailwind CSS / Ant Design / Styled-Components / Framer Motion / MUI / Responsive, Cross Browser Development / Git / GitHub / CI /CD / Slack / JIRA - Intermediate level / Adobe Photoshop / Deployment with Netlify, Vercel / JSON / Railway / STRAPI / Stripe Payments / Javascript(Nodejs, ExpressJs) / NoSQL Databases (MongoDB) / MySQL, SQL, SQLite, PostgreSQL / Postman / Prisma ORM / Mongoose.js / Jest, React Testing Library / Eslint, Prettier / Clerk / Supabase

PROFESSIONAL SUMMARY

Summary

Full-Stack Web Developer with 3+ years of experience in creating dynamic, user-focused web applications and over 5 years of programming expertise. Skilled in React.js, Next.js, Node.js, Express.js, and MongoDB, with a strong focus on RESTful API integration, responsive design, and scalable database solutions. Experienced in optimizing application performance and implementing best practices in Agile environments. Passionate about continuous learning, staying updated on industry trends, and delivering high-quality, impactful solutions.

WORK EXPERIENCE

Frontend Web Developer
CLIQup [01/01/2024 – Current]

City: Berlin | **Country:** Germany

- Developed CLIQup – A social platform for managing personalized friend groups, increasing user engagement by 20%.
- Built responsive, high-performance interfaces using Next.js, improving page load times by 30%.
- Kept skills up-to-date with the latest web technologies and continuously improved technical knowledge.
- Collaborated effectively in agile teams, delivering innovative solutions on time and improving team efficiency by 20%.
- Managed MongoDB for efficient data handling within the MERN stack, optimizing queries for faster performance.
- Implemented secure user authentication with OAuth and JWT, enhancing system security.
- Proficient in responsive web design using CSS frameworks like Tailwind and Bootstrap, ensuring seamless experiences across devices.
- Ensured high code quality through efficient debugging and optimization, reducing bugs by 30%.

Freelance Full-Stack Web Developer
Upwork [01/11/2022 – 11/2023]

City: Berlin | **Country:** Germany

- Developed and optimized scalable Single Page Applications (SPAs) using React.js, Redux Toolkit, and Next.js.
- Designed and implemented RESTful APIs with Node.js and Express.js, ensuring secure and efficient server-side functionality.
- Optimized MongoDB database structures, enhancing application performance and scalability.
- Integrated real-time features with Socket.IO to improve user interaction and engagement.
- Deployed applications on platforms such as Netlify, Vercel, and Render, automating CI/CD workflows for efficient delivery.
- Implemented secure user authentication using JWT, NextAuth, and OAuth to protect sensitive data.
- Developed responsive, user-friendly interfaces using Tailwind CSS and Bootstrap, ensuring cross-browser compatibility.
- Improved application performance through debugging and optimization using Chrome DevTools and Lighthouse.

Frontend Web Developer
Wivro [01/06/2021 – 30/10/2022]

City: London | **Country:** United Kingdom

- Created user-centric web experiences using HTML, CSS, and JavaScript, improving usability.
- Developed dynamic, responsive interfaces with React.js and Next.js, optimizing performance.
- Stayed current with web technologies, continually enhancing skills and applying best practices.
- Collaborated in agile teams, contributing to the successful delivery of features on schedule.
- Managed MongoDB for efficient data handling within the MERN stack, optimizing data queries.
- Implemented secure user authentication with OAuth and JWT, ensuring secure access.
- Built responsive designs using CSS frameworks like Tailwind and Bootstrap for cross-device compatibility.
- Ensured code quality through efficient debugging and code optimization, reducing issues.

Unity Game Developer
BlueHorn Technology [01/09/2017 – 30/08/2019]

City: Lahore | **Country:** Pakistan

- Led successful mobile game launch with 500k downloads in the first month.
- Designed intuitive UI/UX, boosting user engagement and retention.
- Optimized performance for seamless gameplay on low-end devices.
- Collaborated with artists and sound designers for immersive experiences.
- Developed multiple games including
    - Dinosaur Game Simulator Dino Attack 3D ([Link](#))
    - Dragon Simulator Attack 3D Game ([Link](#))
    - Cage Revolution Wrestling World ([Link](#))
    - Dress Up Superhero Spider ([Link](#))

EDUCATION AND TRAINING

Full Stack Web Development - Frontend Focused
BIT (Beam Institute of Technology) [21/11/2022 – 21/11/2023]

City: Berlin | **Country:** Germany | **Website:** [faisalrehman-portfolio.netlify.app](#)

Web Development - Frontend Focused
Udemy [05/01/2022 – 31/10/2022]

City: Berlin | **Country:** Germany

BS Computer Science
Hajvery University [01/10/2014 – 30/05/2017]

Country: Pakistan

VOLUNTEERING

[11/2024 – Current] ReDI School of Digital Integration, Berlin, Germany
Volunteer Mentorship
Supporting aspiring developers with technical guidance, coding skills, and career advice.

[10/2024 – Current] Monómic Bauhaus Berlin, Germany
Volunteer Front-End Developer
Contributing to the development of user-friendly interfaces and enhancing web application performance.
